(This Normal School was commenced in Berre - Sept. 4. 1839 - & continued till the Spring of 1842 when Mr Newman the principal died - It was located at Berre for 3 years - & reopened in Westfield Sept 4. 1844 -)

The Normal School at Westfield  
was organized Wednesday, September 4<sup>th</sup> 1844.

On the morning of that day, at 10 o'clock, the applicants for admission into the Normal School, as well as the applicants for admission into the Westfield Academy, with the teachers of both Institutions — viz: Messrs. Rev. Emerson Davis and William Clough of the Normal School — and Rev. Hubbard Beebe W. C. Goldthwait & Miss H. S. Avery of the Westfield Academy — assembled in the South room of the upper story of the Westfield Academy.

The Rev. Mr. Davis, as Principal of the Normal School, read a portion from the Scriptures and then offered up a prayer suited to the occasion — after which, the applicants for admission into the Westfield Academy, preceded by their teachers, left the room — the teachers of the Normal School & the applicants for admission into the Normal School remaining in the room.

The applicants for admission into the Normal School were then separated into two divisions — one consisting of all the males — the other, of all the females.

The males, preceded by the Rev. Mr. Davis, then withdrew into the North room of the upper story — the females remained in the South room with Mr. Clough.

Each teacher then arranged his division in alphabetical order & proceeded to take, from each member of his division, a written memorandum of his or her name — age — present residence — parent or guardian's name — parent or guardian's occupation — also, whether the applicant had ever been a teacher — what had been his or her general

health — also an avowal, on the part of each applicant, of his or her intention to teach hereafter in the Commonwealth of Massachusetts — and Mr Davis, as Principal, also required, of all the applicants, a certificate of good moral character &c. &c.

There were forty nine applicants — twenty three males & twenty six females — examined on this day, whose names, ages &c. &c. are annexed, being the first forty nine in the list — the individuals, whose names follow these forty nine, were subsequently admitted — having been, previously to admission, wholly examined by Mr Davis, who gave them a Certificate of Admission directed to Mr Clough, who, upon receiving the certificate, accordingly entered their names, ages, &c. &c. —

After the forty nine applicants had been alphabetically arranged & their names, ages, &c. &c. taken — Messrs. Davis & Clough proceeded to examine each — thoroughly — in Intellectual Arithmetic — Written Arithmetic — Grammar, including parsing — Geography — Reading — and Spelling — Mr Davis examining every applicant in Grammar & Parsing — and Written Arithmetic — and part of them in Reading & Spelling — and Mr Clough examining every applicant in Intellectual Arithmetic — and Geography — and part of them in Reading & Spelling — viz: that part not examined by Mr Davis. —

The marks of merit agreed upon, by Messrs. Davis & Clough, were as follow — viz: for Intellectual Arithmetic — Written Arithmetic — Grammar, including parsing — Geography — and Reading — each six — and for Spelling four — so that every applicant, that obtained the highest possible mark of merit, would receive thirty four

— no one obtained it. — The highest mark given was twenty seven & a half, and was obtained by Miss Harriet Buckett of Westfield, aged 20, May 3<sup>rd</sup> 1844 — the highest mark obtained by any male applicant was twenty five, and was given to Joseph Groat Longley of Hawley, aged 21, May 26<sup>th</sup> 1844.

The applicants did not change their rooms during the examination — but the teachers, Messrs Davis & Clough, did. — Mr Davis commenced his examination with the males, & Mr Clough with the females — After Mr Davis had examined the males, in one branch, in the North room, he passed into <sup>the</sup> South room & examined the females in the same branch — and Mr Clough having, in the mean time, examined the females, in one branch, in the South room, passed into the North room & examined the males in the same branch — the teachers thus alternating during the whole examination, which continued during the whole day & terminated about 6 o'clock P.M. —

The result of the examination was as follows:

	6 Intellectual Arithmetic	6 Written Arithmetic	6 Parsing & Grammar	6 Geography	6 Reading	4 Spelling
Males averaged	$\frac{79}{95}$	$4\frac{7}{8}$	$5\frac{1}{2}$	$1\frac{3}{16}$	1	$3\frac{5}{8}$
Females " "	$\frac{19}{26}$	$5\frac{4}{13}$	$5\frac{1}{13}$	$1\frac{21}{26}$	$4\frac{2}{3}$	$3\frac{12}{13}$

It may be proper to state, further, that of the forty nine applicants — thirty two were the children of farmers — seven others had only a widowed mother living — and thirty one had been previously engaged, more or less, in the occupation of teachers. That the ages of the males <sup>were</sup> between 17 and 23 years — the ages of the females, between 16 and 27. ~
